

How do I hire someone to work on my farm?

The easiest thing to do is to go to the marketplace and to click on someone's Avatar. A screen will pop up with a number of options - one of them reads as follows: Hire to work at your farm. If they agree to do it for you, you will get the option to go with them to your farm or to hang out in the marketplace. You will receive a notification to let you know when they are done and the harvested items will be placed into storage. You can then sell them in the marketplace. You can also go to a friends farm if they are active (a green light on their neighbour profile) and ask them to do it for you.
