You gain access to the Real Estate Office at level 15. The first upgrade will cost you \$20 000 coins, the second \$25 000, the third \$30 000 (increasing in increments of \$5 000 coins) except for the final upgrade (24x24). To gain access to each upgrade, you need to purchase the one before it - they have to be purchased in sequential order, you cannot skip an upgrade as all other upgrades will remain locked. You have to buy the 14x14 farm upgrade first and the next upgrade (16x16) will be unlocked. The 14x14 will then disappear from the Real Estate Screen. When you upgrade to the next size up the same thing will happen
