The service is provided by a third party which the developers of Farm Town have no control over. If you have problems click this link:[\[1\]](#) for your Super Rewards Status and click on the Awarded Offers tab. This will show the current status of your purchases and offers and should provide you with a contact link.

If not, find the specific advertizer that you used on the offer list and to click on their link to access their individual site. Once there, look for their contact number or email address and contact them directly.
